WORK EXPERIENCE

Amazon — UX Design Apprentice | New York, NY | Oct 2021 – Oct 2024

- Sole designer on full reconstruction of Alexa Auto Mode in Figma, rebuilding every screen, organizing reusable component libraries, and delivering an interactive prototype used as the official design reference across the team
- Conducted user research including surveys and interviews, synthesizing qualitative and quantitative findings into actionable reports presented to supervisors and PMs to inform iterative design decisions
- Presented design decisions and research insights to cross-functional stakeholders in weekly reviews, articulating reasoning behind layout, hierarchy, and design system alignment

Florida Atlantic University — Undergraduate Researcher | Boca Raton, FL | Jun 2024 – Aug 2024

- Designed and enhanced 3D simulations by adding realistic materials and integrating radio propagation analysis using NVIDIA Ray Tracing, enabling accurate environmental modeling
 - Investigated WiFi localization techniques and algorithms to improve positioning accuracy across various environments
 - Created a working simulation to analyze how outdoor conditions impact signal strength for real-world scenario testing
